

Council of Arroyo Seco Organizations Quarterly Meeting

Thursday, March 29, 2007

The CASO Quarterly Meeting was held at the Audubon Nature Center at Debs Park.

At 6:30 pm representatives of CASO groups began to gather together and mingle while enjoying refreshments.

Paula Sirola chaired the session and called the group to order at 7:00 pm. The first major presentation was on the Bay Delta developments and the latest news on California water issues.

There was also a presentation on "Neighborhood Watch of the Arroyo Habitat" --a community bird monitoring program led by Jeff Chapman of the Audubon Center.

Representatives of CASO groups then updated attendees on the status of their projects and upcoming events.

Ms. Sirola adjourned the meeting at 9:10 pm.
