**Speaker-Facilitator:**

**Tom Richman** ASLA, AICP- Principal, Registered California Landscape Architect 2741, American Institute of Certified Planners no. 12465

**Experience**

Tom has eighteen years experience in landscape architecture, planning, and urban design. His firm, Catalyst, is a San Francisco-based professional consulting firm practicing in the fields of community visioning, planning and urban design, architectural design and landscape architecture. Catalyst is a nationally recognized leader in the field of integrative planning and design for environmental quality. Tom has devoted a significant portion of his practice to integrating stormwater into the environment and has been invited to speak at a variety of conferences by organizations including the American Society of Civil Engineers (ASCE), American Society of Landscape Architects (ASLA), Association of Bay Area Governments (ABAG) and Harvard Graduate School of Design.

**Select Projects**

**California Stormwater Handbooks, 2003 edition**

Primary author of chapters on New Development and Redevelopment planning and design practices for a statewide design guidance handbook.

**Start at the Source:** Design Guidance Manual for Stormwater Quality Protection. Bay Area Stormwater Management Agencies Association. Writing, design, and development of site planning document for multi-jurisdictional agency. Winner, 1997 ASLA National Merit Award, 1999 San Francisco Friends of the Estuary Award. Planned and facilitated a series of public training workshops on stormwater quality planning and design for municipal planners, engineers, public works officials and policymakers (attendance ranged from 25-400). 1996-1999.

**Second Nature:** Adapting Landscape for Sustainable Living. Leading participant in charrette focused on re-designing the City of Los Angeles along sustainable and ecological principles. T.R.E.E.S., 1997.
