

Dear, Hahamongna Watershed Park Advisory Committee

This is a letter of support for the Hahamongna nursery. This nursery plays a crucial role in providing native plants back to the land in which has been stripped of its ecology. With drought and lack of biodiversity on the rise, it is imperative that we not only support the native nurseries and organizations that exist, but make an active effort to create more! They are not just a nursery; they are a vital source of rehabilitation through the means of restoration and education. Please support them and stop the harassment.

With Love,
Vince Bellino
